I have an Armstrong Ultra III 80 furnace [Model EG6G150DC20-4A; Serial # XXXXX]. It was installed when the house was built 20 years ago, and we had the manual spark/pilot light changed to an electronic spark/pilot light about 10 years ago (or so I'm told). We had a Carrier A/C added to it about 8 years ago. Right now, the furnace comes on, that is, the pilot light comes on (it is audible), and ...

Hello, I have an Armstrong Ultra SX 80 furnace that is about seven years old. Many years ago, the furnace installer (no longer in business) moved a wire on the control board that caused the fan to always run at slow speed no matter what the thermostat calls for. Does anyone have a wiring diagram that could help me restore the system to normal operation (only turn the fan on when commanded by ...

Armstrong Ultra 80 III no heat problem.

How do I tell the age of an Armstrong Air furnace or air conditioner from the serial number? Wednesday, June 13, 2018. The 8th digit of the serial number, which will be a letter (and typically the next to last digit) denotes the year of manufacture for units manufactured from the 1980s to the early 1990s: A = 1980 I = (not used) B = 1981 J = 1988. C = 1982 K = 1989. D = 1983 L = 1990. E = 1984 ...

Draft inducer motor help for Armstrong Ultra 80 III : HVAC

I have an 8 year old Armstrong Air Ultra 80 oil-fired hot air furnace that most likely has a bad bearing on the blower motor. This furnace is very cheap and came with the house when I bought it. Could I remove the existing motor and replace it with a new ECM motor and run the blower using my Coal-trol? I was wondering if I could use the same 1800 cfm blower motor that Leisure Line uses on ...
