Cluster Guide. Download the Cluster Guide. The Cluster approach is designed to support the remediation and/or development of a number of sites located in relative close proximity by sharing an Environmental Permit for treatment, located on a single site ¶ the Hub site.

Cluster Guide - CL:AIRE

It's a sampling method used when assorted groupings are naturally exhibited in a population, making random sampling from those groups possible. The use of the technique requires the division or classification of the population into groups, defined by their assorted characteristics or qualities. These groups are then called clusters.
