The land-use maps helped the community members explain that they needed the resources for their livelihoods, that they had longstanding customary claims and use patterns in the area, and also that most of the forested areas were rocky and infertile for oil palm cultivation. With the intervention of the provincial government, the community

Africa is failing. Despite a growth in formal protected areas, wildlife populations are declining. Illegal wildlife trade is a contributing factor but masks wider issues of land conversion, corruption and regressive policies that fail to make wildlife an economically viable land use option for local people.
