Written by an experienced engineer, this book contains practical information on all aspects of pumps including classifications, materials, seals, installation, commissioning and maintenance. In addition you will find essential information on units, manufacturers and suppliers worldwide, providing a unique reference for your desk, R&D lab, maintenance shop or library. * Includes maintenance techniques, helping you get the optimal performance out of your pump and reducing maintenance costs * Will help you to understand seals, couplings and ancillary equipment, ensuring systems are set up properly to save time and money * Provides useful contacts for manufacturers and suppliers who specialise in pumps, pumping and ancillary equipment

Presenting time-tested standard as well as reliable emerging knowledge on threaded fasteners and joints, this book covers how to select parts and materials, predict behavior, control assembly processes, and solve on-the-job problems. It examines key issues affecting bolting in the automotive, pressure vessel, petrochemical, aerospace, and structura

"Holiday and Hanselman present the ... lives of the men and women who strove to live by the timeless Stoic virtues of courage, justice, temperance, [and] wisdom. Organized in digestible, mini-biographies of all the well-known--and not so well-known--Stoics, this book ... brings home what Stoicism was like for the people who loved it and lived it, dusting off powerful lessons to be learned from their struggles and successes. More than a mere history book, every example in these pages, from Epictetus to Marcus Aurelius--slaves to emperors--is designed to help the reader apply philosophy in their own lives"--

An ideal reference for design engineers and operators in water treatment, this manual of water supply practices describes ductile-iron pipe manufacturing, design, hydraulics, pipe wall thickness, corrosion control, installation, supports, fittings and appurtenances, joining, and installation.

Using case studies, interviews, and empirical sources, this book analyzes the strategies and impact of Internet use by civil society actors and asks how useful it is for their work – does the availability of Internet tools change the way citizens' groups work, does it influence their effectiveness, and does it do so differently in Japan from other countries? Four fascinating studies take a closer look at the role of the Internet during the history textbook controversy; strategies of small citizen's groups; comparisons between internet use in Japan, Korea and Germany; and how the internet is used as a platform to discuss the dispatch of Japanese troops in Iraq. Isa Duche has produced an original work that will be of interest to students and scholars of Japanese politics, media and information technology and civil society.

Something dangerous is in the forecast at Moriston House, Lord Hugo Anstead's elegant estate tucked away in the rosy English countryside. A quiet afternoon is shattered when an anonymous note suggests that a murder will occur on the fourth day of rain in October. And when the detestable weather columnist, Walter Halston, is found dead in his office, the village sleuths suspect foul play. A dubious cast of suspects cloud the case, including his lazy son, Robert, whose alibi was unusually stormy. The other siblings, Gary and Lydia, keep their heads above water...until their father's unfashionable wife, Geraldine Croft, is found dead after consuming a fatal cup of tea. Time is running out for Lord Hugo Anstead and the village sleuths, as they uncover a dangerous trail of deception. But will they solve the case before the next deadly downpour? Moriston House Books...classic English village mysteries.
