BS 8210:2020 Facilities maintenance management - code of ...

Maintenance, testing and inspection schedules are required to ensure that the facility is operating safely and efficiently in compliance with statutory obligations, to maximize the life of equipment, and to reduce the risk of failure. The work is planned, often using a computer-aided facility management (CAFM) system.

Facility management - Wikipedia

The most common type of maintenance employed by facility managers is the “reactive” approach. According to a post by Akita Box on preventative maintenance planning, 85 percent of total maintenance spending is on reactive maintenance. The reason for this is simple: It's the cheapest—or at least it seems to be the cheapest. The reality is that it's only the cheapest when everything is running smoothly.
