Celeste English and Ronnie Frazier are sisters, but they couldn't be more different. Celeste is a doctor's wife, living a perfect and elegant life. But secretly, she is terrified: her marriage is falling apart and her need to control the people around her threatens to alienate her entire family. And Celeste allows no one to see how vulnerable she really is. Ronnie is an actress, living in New York. Her life, however, is a lie: she has no money, has no home, and her life is held together by "chewing gum, paper clips, and spit," though she wants everyone to think that her life is one of high glamour and budding fame. When their father dies, the sisters inherit a house in Prosper, North Carolina. Their mother, Della, is adamant that they forget about going there and dredging up the past. Because Della has secrets she'd rather not see come to light-secrets and heartbreak she's kept from everyone for years. Neither Ronnie, Celeste, nor Della realize just what their trip to Prosper will

uncover and they must discover for themselves who they really are, who they really love, and what the future holds for them. *Far From The Tree* is a novel that asks the questions: can the past ever truly remain hidden? Can mothers and daughters put aside their usual roles long enough to get to really know each other? Long enough to see they each have felt the love, loss, heartache and joy that they share as women. And can two strangers realize that they are, and always will be, sisters?

From the National Book Award-winning author of *The Noonday Demon: An Atlas of Depression* comes a monumental new work, a decade in the writing, about family. In *Far from the Tree*, Andrew Solomon tells the stories of parents who not only learn to deal with their exceptional children but also find profound meaning in doing so. Solomon's startling proposition is that diversity is what unites us all. He writes about families coping with deafness, dwarfism, Down syndrome, autism, schizophrenia, multiple severe disabilities, with children who are prodigies, who are conceived in rape, who become criminals, who are transgender. While each of these characteristics is potentially isolating, the experience of difference within families is universal, as are the triumphs of love Solomon documents in every chapter. All parenting turns on a crucial question: to what extent parents should accept their children for who they are, and to what extent they should help them become their best selves. Drawing on forty thousand pages of interview transcripts with more than three hundred families, Solomon mines the eloquence of ordinary

people facing extreme challenges. Whether considering prenatal screening for genetic disorders, cochlear implants for the deaf, or gender reassignment surgery for transgender people, Solomon narrates a universal struggle toward compassion. Many families grow closer through caring for a challenging child; most discover supportive communities of others similarly affected; some are inspired to become advocates and activists, celebrating the very conditions they once feared. Woven into their courageous and affirming stories is Solomon's journey to accepting his own identity, which culminated in his midlife decision, influenced by this research, to become a parent. Elegantly reported by a spectacularly original thinker, *Far from the Tree* explores themes of generosity, acceptance, and tolerance—all rooted in the insight that love can transcend every prejudice. This crucial and revelatory book expands our definition of what it is to be human.

"I can't tell you how many times I have preached and afterward promised God I would never embarrass Him like that again." Joseph M. Stowell. *Unnatural. Supernatural. A gift. Hard work. Exhilarating. James Moody of the 2/1st Machine Gun Battalion found an Egyptian dog in 1940, who became Horrie, the Battalion's mascot. He wrote it first as a simple tale, augmented by his own photographs of Horrie and his mates in action in Greece, Crete and Palestine. This was sent to Ion Idriess, who developed the book with a series of questions, to finally develop the classic tale of man's best friend: Horrie the Wog Dog (ETT Imprint 2017). Published here for the first time is Moody's original tale, and extended response to Idriess' questions, which gives a much stronger picture of members of the Battalion itself, the Rebels, written and lived in than Australian larrikin manner. Introduced by Tom Thompson, it also includes many pictures of Horrie in action, never before published.
