“During the time of stress, the “fight-or-flight” response is on and the self-repair mechanism is disabled. It is then when we say that the immunity of the body goes down and the body is exposed to the risk for disease.

Fight Or Flight Quotes (23 quotes) - Goodreads

Flight or flying is the process by which an object moves through a space without contacting any planetary surface, either within an atmosphere (i.e. air flight or aviation) or through the vacuum of outer space (i.e. spaceflight). This can be achieved by generating aerodynamic lift associated with propulsive thrust, aerostatically using buoyancy, or by ballistic movement. Many things can fly ...
