How to Adjust an Automatic Slack AdjusterNAPA Service Tool part # 7578 Slack Adjuster for Haldex Haldex Methods and Practices of ABA Installation - Part Four: Installation Haldex Slack Adjuster Manual
The Haldex automatic brake adjuster is a clearance sensing brake adjuster that maintains a nominal distance or clearance between lining and drum. When the Brake Applies: Upon brake application, the brake adjuster rotates and moves the shoes into contact with the drum. The clearance notch corresponds to the normal lining-to-drum clearance. As the brake application continues, the rack moves ...

SERVICE MANUAL - Haldex

Manual brake adjusters are installed as the lever linking the actuator to the camshaft, in a drum brake system. Regular manual adjustment is required to maintain a constant clearance between the brake linings and the drum. Read more Less products Compare. Details List. Quick links.
