'This book encourages all those working with children with speech, language and communication needs to develop their creativity within a model of child-centred reflective practice, acknowledging that our interaction with children has an effect at many different levels. Therapists, teachers, teaching assistants and parents will find a wealth of practical suggestions and a solid foundation of research within these pages.' Mary Hampton, Chair, Association of Speech and Language Therapists in Independent Practice (ASLTIP), UK For many children, the act of communication that most of us take for granted can be a struggle, and communicating with others can become something to fear rather than enjoy. This creative book is full of fun and imaginative ideas to help children aged 4-11 with a speech or language delay or disorder to develop their communication abilities and skills. It is packed with activities and games tailored to help develop abilities such as effective listening, imagination and perseverance, and to build specific skills such as formulation of questions, categorising, taking turns and understanding non-verbal communication. Tips for personalising and shaping the activities are provided. A comprehensive theory section also

covers how play can be a therapeutic tool for enhancing communication, and how to structure the emotional environment. Practical advice on working with groups and individuals and in different settings is also given. This activity book is an invaluable resource not only for speech and language therapists and students, but also for parents, teachers, carers and other support staff who are looking for creative ways to promote speech and language development. Deborah M. Plummer is a speech and language therapist and imagework practitioner with over 20 years' experience of facilitating groups and working individually with both children and adults. Formerly a clinical lead therapist working within the NHS, she now lectures at De Montfort University, Leicester, and runs workshops and short courses on the uses of imagery and story-telling and issues of self-esteem. Deborah is author of several titles, including *Helping Children to Cope with Change, Stress and Anxiety: A Photocopiable Activities Book*, *Helping Children to Build Self-Esteem: A Photocopiable Activities Book*, 2nd edition, *Self-Esteem Games for Children*, *Social Skills Games for Children*, *Helping Adolescents and Adults to Build Self-Esteem: A Photocopiable Resource Book*, and *Anger Management Games for Children*, all published by Jessica Kingsley Publishers. Deborah's website can be found at www.deborahplummer.co.uk.

This activity book will be an invaluable resource not only for speech and language therapists and students, but also for parents, teachers, carers and other support staff who are looking for creative ways to promote language development.

From the New York Times best-selling author of *How Children Succeed*, an essential handbook of “informative and effective methods to help children overcome issues and thrive at home and in school” *—now including sixteen new infographics! In *How Children Succeed*, Paul Tough introduced us to research showing that personal qualities like perseverance, self-control, and conscientiousness play a critical role in children’s success. Now, in *Helping Children Succeed*, Tough takes on a new set of pressing questions: What does growing up in poverty do to children’s mental and physical development? How does adversity at home affect their success in the classroom, from preschool to high school? And what practical steps can the adults who are responsible for them take to improve their chances for a positive future? Tough once again encourages us to think in a new way about the challenges of childhood. Mining the latest research in psychology and neuroscience, he provides us with insights and strategies for a new approach to childhood adversity, one designed to help many more children succeed. * (Kirkus Reviews)

Help children with motor coordination difficulties to develop their gross motor skills in a fun way with this guided programme for children and young people aged 5-18. Activity worksheets provide detailed descriptions of how gross motor tasks can be accomplished through incremental stages, culminating in the achievement of the specific task. The step-by-step programme is divided into two sections: * learning basic skills, which includes balance, jumping, climbing, skipping, ball skills, riding a bike and more * developing specific sports skills, which includes football, badminton, basketball, netball, tennis, bowling and more. The Stepping Stones Curriculum will enable adults to chart the progress of a child and allow children to become engaged in mastering motor coordination skills. Supplementary aids such as warm up and cool-down activity sheets, an initial assessment tool and a certificate of achievement will help parents and professionals to deliver the programme effectively at home or at school.

This guide for parents of school-age children with Down syndrome begins where Kumins previous book Early Communication Skills leaves off. The author, a speech-language pathologist with more than thirty years of experience, and a popular presenter at parent and professional conferences, provides a comprehensive overview of speech and language issues that come into play at home, school, and in the community from kindergarten through middle-school years. She covers a wide range of abilities from kids who are scarcely verbal to those with strong communication skills and provides many case studies to illustrate typical problems and how to work through them. HELPING CHILDREN WITH DOWN SYNDROME COMMUNICATE BETTER explains the factors that comprise speech and language and points

to the areas that can be more difficult for children with Down syndrome. Parents learn about the evaluation process the requirements defined by special education law; how to advocate for testing, as well as details about the evaluation itself and what it can reveal. Chapters on treatment options detail how speech-language pathologists can help children improve specific skills, and offers dozens of home activities, games and practical ways to teach skills during daily tasks such as cooking or shopping. Treatment also focuses on fine tuning skills necessary for different settings school, home and the community how to improve conversational skills, and when to consider assistive technology (communication boards, sign language, and picture communication systems). This practical, user-friendly guide gives parents the knowledge and confidence they need to help their child communicate better.

This second edition of the highly successful Helping Children to Build Self-Esteem is packed with fun and effective activities to help children develop and maintain healthy self-esteem. New and updated material has been added including a section on running parent groups alongside children's groups, as well as a brand new layout, fresh illustrations, an expanded theoretical section and extra activities. Based on the author's extensive clinical experience, this activities book will equip and support teaching staff, therapists and carers in encouraging feelings of competence and self-worth in children and their families. It is primarily designed for use with individuals and groups of children aged 7-11, but the ideas can easily be adapted for both older and younger children and children with learning difficulties. This fully photocopiable resource is invaluable for anyone looking for creative, practical ways of nurturing self-esteem in children.

“ Drop the flashcards—grit, character, and curiosity matter even more than cognitive skills. A persuasive wake-up call. ” —People Why do some children succeed while others fail? The story we usually tell about childhood and success is the one about intelligence: success comes to those who score highest on tests, from preschool admissions to SATs. But in *How Children Succeed*, Paul Tough argues that the qualities that matter more have to do with character: skills like perseverance, curiosity, optimism, and self-control. *How Children Succeed* introduces us to a new generation of researchers and educators, who, for the first time, are using the tools of science to peel back the mysteries of character. Through their stories—and the stories of the children they are trying to help—Tough reveals how this new knowledge can transform young people ’ s lives. He uncovers the surprising ways in which parents do—and do not—prepare their children for adulthood. And he provides us with new insights into how to improve the lives of children growing up in poverty. This provocative and profoundly hopeful book will not only inspire and engage readers, it will also change our understanding of childhood itself. “ Illuminates the extremes of American childhood: for rich kids, a safety net drawn so tight it ’ s a harness; for poor kids, almost nothing to break their fall. ” —New York Times “ I learned so much reading this book and I came away full of hope about how we can make life better for all kinds of kids. ” —Slate

Explains why children misbehave; discusses class and family meetings, mutual respect, and responsibility; and tells how parents and teachers can be more understanding and supportive

There's nothing more frustrating than watching your bright, talented son or daughter struggle with everyday tasks like finishing homework, putting away toys, or following instructions at school. Your "smart but scattered" 4- to 13-year-old might also have trouble coping with disappointment or managing anger. Drs. Peg Dawson and Richard Guare have great news: there's a lot you can do to help. The latest research in child development shows that many kids who have the brain and heart to succeed lack or lag behind in crucial "executive skills"--the fundamental habits of mind required for getting organized, staying focused, and controlling impulses and emotions. Learn easy-to-follow steps to identify your child's strengths and weaknesses, use activities and techniques proven to boost specific skills, and problem-solve daily routines. Helpful worksheets and forms can be downloaded and printed in a convenient 8 1/2" x 11" size. Small changes can add up to big improvements--this empowering book shows how. See also the authors' *Smart but Scattered Teens* and their self-help guide for adults. Plus, an academic planner for middle and high school students and related titles for professionals.

Parent by Accident or Parent on Purpose? Your child has a God-given purpose that is too important to be left to chance. As parents, we have a sacred opportunity to help our children find their way—the way they were created to go. When a child has insight into God's special plan for his life, he will be more passionate about following Jesus, better able to focus his energies on what is most important, and equipped to make wiser decisions. *Raising Children on Purpose* will help you: Assess your child's natural talents and gifts Recognize
