Japanese gardens are generally classified according to the nature of the terrain, either tsuki-yama ("artificial hills") or hira-niwa ("level ground"), each having particular features. Tsuki-yama consists of hills and ponds, and hira-niwa consists of flat ground designed to represent a valley or moor; tsuki-yama may include a portion laid out as hira-niwa .

Japanese garden | Elements, Types, Examples, & Pictures ...

Japanese style gardens should be given a simple, structural backbone. Avoid straight lines and symmetry, as seen in some formal styles, going for something far more organic and uncluttered. These types of garden are largely inspired by nature, so a dry gravel path can be used to represent a meandering river and a carefully placed boulder, stands in for a mountain.

How to create a Japanese garden - Saga

From ancient times, the Japanese had a tradition for creating gardens that capture the natural landscape. They combine the basic elements of plants, water and rocks with simple, clean lines to...

JapanGarden.co.uk

A beautiful and tranquil experience of a Japanese garden hidden in the hillside of the Ochils. Well sign posted and easy to buy tickets online. The weather stayed dry for my visit although I would say it would be much nicer in the spring and summer months rather than October. The Japanese garden was well laid out and surrounded a lovely large pond.

The Japanese Garden (Dollar) - 2020 All You Need to Know ...
