Book Review 3.5 of 5 stars to Labyrinth, the first book in a three part series entitled "Languedoc," written in 2005 by Kate Mosse. I enjoyed this book. Many people felt it was a bit boring and inconsistent. It was one of the earlier books I read in the adventure genre, around the time I got hooked on the Da Vinci code book and series.

Sepulchre is the second novel in Kate's Languedoc Trilogy. A timeslip adventure novel - set in 19th century and contemporary France - it is about Tarot, about ghosts, about the power of music and place, about the relationship between the two great modern republics of the 20th century, France and America.

4.0 out of 5 stars Labyrinth (Languedoc) Kate Mosse. Reviewed in the United States on October 10, 2016. Verified Purchase. I live in an area where Languedoc is the local patois so the book was pretty much required-reading for me and I enjoyed it. The structure of the book is chronologically quite complicated but evidently well-researched.

The source, taken from 'Labyrinth' by Kate Mosse, was both engaging and enabling for students, allowing all abilities to access and challenge themselves: there was evidence of strong personal engagement with the reading material and, in some cases, a precise demonstration of the skills required.

The consensus in the group was it's a cracking read and Kate Mosse had obviously done her research. Our only criticism was most of us thought the characters could have been developed more. One of the group had read it previously and had been so enthralled that she went for a holiday in the Carcassonne area.
