Liebherr A312 Hydraulic Excavator Operation Maintenance Manual

Liebherr mining excavators are known for their exceptional performance, excellent reliability, simple operation, operator comfort and easy serviceability. The Liebherr mining product line includes eight different models, powered by diesel engines or electric motors, with bucket capacities from 7 to 47,5 m³ (13 to 80 tonnes material weight) and engine power ratings up to 4,000 hp.

Mining excavators - Liebherr

Dragline excavators from Liebher are used for a wide variety of applications with a dragline bucket, mostly for the mining of sand and/or gravel. The dragline bucket is more or less cast as required through the swinging of the duty cycle crawler crane.

Duty cycle crawler cranes - Liebherr

How an excavator works: To understand the operation of an excavator we must know that its boom consists of two hydraulic cylinders, a bucket, and the boom. This piece simulates the movement of the human arm, just as the wrist and elbow would. Then we have the engine which works through a change in hydraulic power. It has the ability to rotate in a circle, for which it requires the outer race ...
