If there is a formula to solve a given problem in mathematics, you will find it in Alan Jeffrey's Handbook of Mathematical Formulas and Integrals. Thanks to its unique thumb-tab indexing feature, answers are easy to find based upon the type of problem they solve. The Handbook covers important formulas, functions, relations, and methods from algebra, trigonometric and exponential functions, combinatorics, probability, matrix theory, calculus and vector calculus, both ordinary and partial differential equations, Fourier series, orthogonal polynomials, and Laplace transforms. Based on Gradshteyn and Ryzhik's Table of Integrals, Series, and Products, Fifth Edition (edited by Jeffrey), but far more accessible and written with particular attention to the needs of students and practicing scientists and engineers, this book is an essential resource. Affordable and authoritative, it is the first place to look for help and a rewarding place to browse. Special thumb-tab index throughout the book for ease of use Answers are keyed to the type of problem they solve Formulas are provided for problems across the entire spectrum of Mathematics All equations are sent from a computer-checked source code Companion to Gradshteyn: Table of Integrals, Series, and Products, Fifth Edition The following features make the Handbook a Better Value than its Competition: Less expensive More comprehensive Equations are computer-validated with Scientific WorkPlace(tm) and Mathematica(r) Superior quality from one of the most respected names in scientific and technical publishing Offers unique thumb-tab indexing throughout the book which makes finding answers quick and easy

Some love stories are... soul stories Dr. Radhika Sharma is what girls of today aspire to become – educated, financially independent and a woman of substance. But within, she is a broken person who is yet to come to terms with her past, her first love Raen ' s sudden death. In comes a nine-year-old patient under her treatment, who is not only infatuated with her, but also keeps asking her non-stop questions. One of those questions leads her to open Raen ' s personal diary. By the time she finishes reading the diary, Radhika finds an uncanny similarity

between Raen and the young patient. She finds herself in the middle of an unusual situation. One after another, shocking truths emerge, which push her to question if an unexplained attraction is the missing link between souls. A Thing Beyond Forever is a pristine love story which digs deep into human emotions and explores the complexity of it in a soul-stirring manner.

Indicators are essential tools for policy making, & since the publication of the Brundlandt Report in 1987, policy makers & analysts have been trying to capture the concept of sustainable development in statistics. It presents a provisional core set of 17 indicators for changing consumption & production patterns.
