Microprocessors And  
Interfacing

Interfacing is of two types,  
memory interfacing and I/O  
interfacing. Memory  
Interfacing. When we are  
executing any instruction,  
we need the microprocessor

# Online Library

## Microprocessors And

Interfacing  
to access the memory for reading instruction codes and the data stored in the memory. For this, both the memory and the microprocessor requires some signals to read from and write to registers.
