Workshop projects. MODEL engineers who write about novel items of tooling have started to make a comeback since the heydays in decades past of George Thomas, John Radford, Dave Lammas, Martin Cleeve and, of course, Edgar T Westbury. Our new generation includes people like Ken Willson with his stepless anvil for screwcutting, Graham Howe whose articles regularly appear on MEWS and Gray Meek.

Workshop projects - Modelengineeringwebsite.com

This collection of 18 unique projects for home workshop equipment enables the model engineer to create useful and even essential items that cannot be purchased commercially, including: An auxilliary workbench; Tap Holders; Distance and height gauges; Lathe back stop; Tailstock die-holder; Faceplate clamps; Collets; DTI accessories; Sash clamps; Low profile clamps; and, Tapping stand.

CANCELLED - The MODEL ENGINEER COMPETITION 2020 PLEASE NOTE: Due to the current public health situation, the Competition had to be cancelled for 2020 as it was sadly not possible for the National Model Engineering and Modelling Exhibition (due to have been held from 8th - 10th May at Doncaster) to go ahead as planned .. The 'benchmark' Model Engineer Competition featured, for the first time ...

The home of Model Engineer and Model Engineers' Workshop ...

The Journeyman's Workshop is based in a typical model engineers shed which I built many years ago. The workshop has seen many changes and at one time included both a darkroom and the "potting shed". The workshop has been on-line in one form or another since 2007. The original pages are reviews of my lathe and milling machine.
