How to Protect Your Leadership Influence and Power You've worked hard to achieve your dreams and goals. Many others have done the same—only to lose it all in the end. Every day, we read about successful people in various walks of life who have lost their power and influence. They've been fired, forced to resign, or shamed out of public life. They no longer have a market for their gifts, and they may even face criminal proceedings. These leaders have lost the trust of their companies, constituents, nations, followers, and families. Many were surprised to discover that their talents alone were not enough to prevent their downfall. Why did they fail in the end? Because they lacked the one quality that would have protected their leadership and given them enduring influence. Ironically, this quality is seldom taught to leaders today, either formally or informally. It is the quality of moral force, or character. Every human being is a leader over some domain as he or she exercises gifts and influence. That domain might be the halls of government, the boardroom, the classroom, the community, or the home. In *The Power of Character in Leadership: How Values, Morals, Ethics, and Principles Affect Leaders*, you will discover what character is, what it means to develop moral force, and how to preserve your leadership influence so that it is both effective and enduring.

Building Character is written for leaders who understand their responsibility to develop authentic leaders within their organizations. Without presenting an overarching moral code or a prescriptive code of behavior, this book offers leaders and managers a practical model complete with the tools, information, and processes to develop character in leaders at all levels. The author explains the role character plays in leadership success and effectiveness and outlines how character can be developed through the Five E's—Example, Education, Experience, Evaluation, and Environment.

In Understanding the Purpose and Power of Authority, best-selling author Dr. Myles Munroe turns the widely accepted but counterfeit concept of authority upside down. Then, he reveals God's original intent, showing us how to live in the freedom of our own personal authority in God's great design and to respond positively to the inherent authority of others. Many people view authority as something oppressive, stifling, and even fearful. All of us hate to be controlled or manipulated. Our negative concepts and experiences of authority produce life-draining emotions—fear, distrust, suspicion, friction, defensiveness, antagonism, stress, worry, and dread. Others have a limited perspective of what authority means, believing that only people who reach a certain "level" in life can exercise it. They don't believe they could ever be called to a place of authority. The truth is, we were all created for authority, and we are all answerable to the authority of others. Authority is what we're authorized to do by our inherent purposes. You have a God-given calling to develop your own personal authority to carry out your unique

purpose in life.

Seminary president Jeff Iorg believes that character, and character development, are essential foundations for effective leaders. In *The Character of Leadership*, he writes about how God ever shapes character in the life of every leader, and in relation, how continual spiritual formation is a process to which every good leader must pay close attention. Iorg puts insightful chapter-long emphasis on nine important character-shaping qualities that help readers in "becoming the leader God intends me to be rather than doing the leading God intends me to do." The nine qualities are: Integrity, Security, Purity, Humility, Servanthood, Wisdom, Discipline, Courage, and Passion. Endorsements: Rick Warren, author of *The Purpose-Driven Life* "Jeff Iorg defines lasting leadership as character, not capacity or competency. The making of a great leader is built on what God intends you to be rather than doing the leading God intends for you to do. His purpose is first and foremost to shape you into the image of Jesus, the greatest leader of all time." James T. Draper, Jr., president emeritus, LifeWay Christian Resources "An enormous contribution to the critical area of ministry and leadership. A must read for every ministry that strives for excellence. I recommend it without reservation." J. Robert White, executive director, Georgia Baptist Convention "Iorg is imminently qualified to write this volume on leadership . . . the chapters on integrity and purity are very much needed in our times and worth the investment of your time."

Does the character of our leaders matter? You may think this question was answered long ago. Countless business authors and analysts have assured us that great leadership demands great character. Time and again, we've seen that truth play out, as once-thriving organizations falter and fail

under the guidance of leaders behaving badly. Why, then, do so many executives remain skeptical about the true value of leadership character? A winning strategy and a sound business model are what really matter, they argue; character is just the icing on the cake. What's been missing from this debate is hard evidence: data that shows not only that leadership character matters for organizational success, but how it matters; and concrete evidence that it leads to better business results. Now, in this groundbreaking book, respected leadership researcher, adviser, and author Fred Kiel offers that evidence—solid data that demonstrates the connection between character, leadership excellence, and organizational results. After seven years of rigorous research based on a landmark study of more than 100 CEOs and over 8,000 of their employees' observations, Kiel's findings show that leaders of strong character achieved up to five times the ROA for their organizations as did leaders of weak character. Return on Character goes on to reveal:

- How leadership character is formed, how it creates value, and how that value spreads throughout the organization
- How low-character leaders undermine the success of even the best business plans
- How leaders at any level can develop the habits of strong character and “unlearn” the habits of poor character

The book also provides a character-building methodology—step-by-step advice and techniques for assessing your own character habits and improving your performance and that of your organization. Return on Character provides the blueprint for building your own leadership character and creating a character-driven organization that achieves superior business results.

Leadership is essential. Maybe you've shied away from leadership because you don't know what it will involve, or you feel too unsure of your own abilities. But your leadership is

needed! In every sector of society, from families to businesses to churches, leadership roles remain empty, waiting for people willing and able to step up and make wise decisions that bring positive change. And, in a world with priorities vastly different from Christ's, Christian leaders are especially needed to point people to him. Preparation is essential. As essential as the leadership itself is the preparation beforehand, which is why Greg Ogden, a seasoned leader himself, has created this interactive guide that will give you the tools you need to lead well, using your unique gifts and experience. Divided into four sections, this workbook will help you develop character, postures, vision and skills as you participate in the following elements in each chapter: a memory verse a Bible study a reading a leadership exercise By working through these multiple channels of learning you'll be equipped not just with head knowledge about leadership but with true character formation and awareness of your own abilities that will prepare you for the challenges and choices of leadership. Designed to work well on your own, with a partner or with a group, Leadership Essentials by Greg Ogden and Daniel Meyer is the essential preparation tool for those who would be led and shaped by Christ to lead others with strength and wisdom.

This book focuses on the element of leadership that has largely been neglected in the literature: character. Often thought to be a subjective construct, the book demonstrates the concrete behaviors associated with different character dimensions in order to illustrate how these behaviors can be developed, and character strengthened. Based on research involving over 300 senior leaders from different industries, sectors and countries, Crossan, Seijts, and Gandz developed a model for leadership character that focuses on eleven dimensions. The book begins by setting the context for the

focus on character in business, asking what character is and whether it can be learned, developed, molded or changed. Next, the book focuses on each dimension of leadership character in turn, exploring its elements and the ways in which it can be applied in a business setting. The book concludes with a summary of the key insights, an exploration of the interactions between the character dimensions, and a call to the reader to reflect on how to develop one's own and others' leadership character. Bridging theory and management practice, *Developing Leadership Character* will interest students and practitioners alike. Readers will benefit not only from a new, robust theoretical framework for leadership character, but will also learn how character can be developed further.
