[Detailed Guide] - In ...

Samsung recommends first trying to reset your ice maker, as this might propel the appliance into action to defrost itself.

When resetting doesn't work, the next step is to empty your freezer of its contents and to gather a bunch of towels. Very carefully, use a hairdryer to melt the ice

defrost a fridge freezer that don't need you to turn the appliance off completely. One method involves boiling some water, pouring that water into a baking tray or pan and placing that in the freezer when it's empty. The steam from the hot water will work its way around the shelves and help to melt the ice faster.
