In 1968, British Leyland brought together many of Britain's motor manufacturers, with the intention of creating a robust unified group that could equal the strength of the big European conglomerates. But this was not to be. There have been many books about the politics and the business activities of British Leyland, but British Leyland - The Cars, 1968-1986 looks exclusively at the cars that came from the company, both the models it inherited and those it created. The eighteen years of the corporation's existence saw a confusing multitude of different car types, but this book resolves these confusions, clarifying who built what, and when. The book takes 1986 as its cut-off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group. The book includes: Production histories and technical specifications of every major model; The special overseas models; Appendices on engines, code names, and factories; Buying guidance on the models built in Britain. This is the most comprehensive book so far to focus on the cars from British Leyland between 1968-1986 and it provides an overview of each model's production history, together with essential specification details. It is profusely illustrated with 178 colour and 63 b&w photographs.

A visual history of one of childhood's most beloved icons—the Little Red Wagon—told through a rich collection of photos and stories that highlight its unique place in American culture. For generations, the Radio Flyer—the fire engine red wagon with the distinctive white logo emblazoned on its side—has fueled the imaginative adventures of children, transforming them into astronauts on a rocket ship to the moon, racecar drivers in the Indy 500, and pioneers traveling into the badlands of the Wild West. The Radio Flyer is the story of childhood—a story of wondrous journeys often accompanied by someone important: a parent, a sibling, a friend, a pet. Since 1917, the family-owned business Radio Flyer Inc. has created this cherished wagon, building a legacy of high quality, timeless, and innovative toys that spark children's imaginations and inspire active play outdoors. With more than 100 million wagons sold—many of them passed down from generation to generation—Radio Flyers have carried, hauled, and fueled more hours of magical escapades than any other children's ride-on toy in America. This beautifully designed and illustrated keepsake book pays homage to this cultural touchstone as it celebrates its first centenary and embarks on its second. Packed with 250 exclusive full-color and black-and-white illustrations, stories, and original drawings from the Radio Flyer Inc. archives, Radio Flyer chronicles the history of this popular brand for the first time. Radio Flyer's story is America's story—a story of an enterprising Italian immigrant's dream realized, and a testament to the value and strength of family ties. Including a host of tender reminiscences from fans across the country, this touching tribute is a special piece of childhood, and the perfect gift for everyone who's ever loved a Little Red Wagon.

American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instill this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.

An important collection of essays that use a variety of different approaches and sources to uncover the continued relevance of witchcraft and magic in nineteenth and twentieth-century Europe.

Ex-reporter Christian Hunt debunks the world's greatest myths, from the Bermuda Triangle and Loch Ness Monster to Crop Circles. But on Christmas Eve in London, Hunt reluctantly faces his biggest challenge yet. Hunt's plans for a peaceful Christmas are shattered by an unplanned visit from a man named Ryko, who tells Hunt he has been hired to track down Halley Osbourne—the woman Hunt loved and lost nine years earlier. With Halley's life in jeopardy and terrorists now hot on his trail, Hunt has no choice but to partner with Ryko on a mission to find her and investigate why religious icons around the world are being systematically destroyed. As their perilous journey takes them across Europe, they are plunged into a world of ancient foes and modern conflicts in a race against time to stop a threat far more sinister than they ever imagined. In this fast-paced thriller, conspiracy and danger surround the two men who are about to discover that the destruction of the world's religious icons is just the beginning.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The 1-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.
