the correct math operation to apply to word problems, and how to perform those operations using Scientific Notation with and without technology.

Ninth grade Lesson Scientific Notation Is An Exponential ...

For example, entering the mass in grams of a hydrogen atom into a calculator would require a display with at least 24 decimal places. A system called scientific notation avoids much of the tedium and awkwardness of manipulating numbers with large or small magnitudes. In scientific notation, these numbers are expressed in the form $[N \times 10^n]$
