that you have a
90 percent
chance of
including the
correct value.

McConnell of
Code Complete
fame, is not
joking when he
describes
software
estimation as a
black art,
though even then
he's being
generous. An
art, even a
black one,
implies both

skill and
accomplishment.
For most
developers
software
estimation is
one part blind
panic and the
other self-
defence.
