The Shape of Ideas: An Illustrated Exploration of ...

A Lesson for Kindergartners. By Marilyn Burns. Dayle Ann Dodds wrote that she developed the idea for her book The Shape of Things (Candlewick, 1994) to help children see “ how a few simple shapes make up a lot of things we have in the world. ” After reading the book to a kindergarten class, Leyani von Rotz organized three activities to give the students further experience with identifying ...

The Shape of Things Lesson Plan | Creative Educator

The Shapes Project is a combinatorial system designed by the American artist Allan McCollum, in 2005-2006, to produce unique two-dimensional "shapes." The system allows for the making of enough unique shapes for every person on the planet to have one of their own. It also allows the shapes to be kept track of in such a way as to ensure that no two will ever be alike.
