Daisy Al-Amir is one of the more visible figures in women's fiction in the Arab world today. This collection of stories, originally published in Lebanon as *Ala La'ihat al-Intizar*, is the most recent of her five publications. Her stories intimately reflect women's experiences in the chaotic worlds of the Lebanese civil war and the rise of Saadam Hussain as Iraq's leader. Set in Iraq, Cyprus, and Lebanon, the stories shed light on an unusual Middle East refugee experience—that of a cultural refugee, a divorced woman who is educated, affluent, and alone. Al-Amir is also a poet and novelist, whose sensual prose grows out of a long tradition of Iraqi poetry. But one also finds existential themes in her works, as Al-Amir tries to balance what seems fated and what seems arbitrary in the turbulent world she inhabits. She deals with time and space in a minimalist, surreal style, while studying the disappointments of life through the subjective lens of memory. Honestly facing the absence of family and the instability of place, Al-Amir gives lifelike qualities to the inanimate objects of her rapidly changing world. In addition to the stories, two examples of the author's experimental poems are included. In her introduction, Mona Mikhail places these stories and poems in the context of contemporary Islamic literature and

gender studies.

By exploring how translation has shaped the literary contexts of six Iraqi woman writers, this book offers new insights into their translation pathways as part of their stories' politics of meaning-making. The writers in focus are Samira Al-Mana, Daizy Al-Amir, Inaam Kachachi, Betool Khedairi, Alia Mamdouh and Hadiya Hussein, whose novels include themes of exile, war, occupation, class, rurality and storytelling as cultural survival. Using perspectives of feminist translation to examine how Iraqi women's story-making has been mediated in English translation across differing times and locations, this book is the first to explore how Iraqi women's literature calls for new theoretical engagements and why this literature often interrogates and diversifies many literary theories' geopolitical scope. This book will be of great interest for researchers in Arabic literature, women's literature, translation studies and women and gender studies.

The Routledge Handbook of Translation, Feminism and Gender provides a comprehensive, state-of-the-art overview of feminism and gender awareness in translation and translation studies today. Bringing together work from more than 20 different countries – from Russia to Chile, Yemen, Turkey, China, India, Egypt and the Maghreb as well as the UK, Canada, the USA and Europe – this Handbook represents a transnational approach to this topic, which is in development in many parts of the world. With 41 chapters, this book presents, discusses, and critically examines many different aspects of gender in translation and its effects, both local and transnational. Providing overviews of key questions and case studies of work currently in progress, this Handbook is the essential reference and resource for students and researchers of translation, feminism, and gender.

This book covers 60 years of translations, studies, and other writings, which represent Iraq's national literature, including recent works of numerous Iraqi writers living in Western exile. By drawing attention to a largely overlooked but relevant and extensive literature accessible in English, it will serve as an invaluable guide to students of contemporary Iraq, modern Arabic literature and other fields such as women's studies, postcolonial studies, third world literature, American-Arab/Muslim Relations, and diaspora studies.

Arab women's writing in the modern age began with 'A'isha al-Taymuriya, Warda al-Yaziji, Zaynab Fawwaz, and other nineteenth-century pioneers in Egypt and the Levant. This unique study—first published in Arabic in 2004—looks at the work of those pioneers and then traces the development of Arab women's literature through the end of the twentieth century, and also includes a meticulously researched, comprehensive bibliography of writing by Arab women. In the first section, in nine essays that cover the Arab Middle East from Morocco to Iraq and Syria to Yemen, critics and writers from the Arab world examine the origin and evolution of women's writing in each country in the region, addressing fiction, poetry, drama, and autobiographical writing. The second part of the volume contains bibliographical entries for over 1,200 Arab women writers from the last third of the nineteenth century through 1999. Each entry contains a short biography and a bibliography of each author's published works. This section also includes Arab women's writing in French and English, as well as a bibliography of works translated into English. With its broad scope and extensive research, this book is an indispensable resource for anyone interested in Arabic literature, women's studies, or comparative literature. Contributors: Emad Abu Ghazi, Radwa Ashour, Mohammed Berrada, Ferial J. Ghazoul, Subhi Hadidi, Haydar Ibrahim, Yumna al-'Id, Su'ad al-Mani', Iman al-Qadi, Amina Rachid, Huda al-Sadda, Hatim al-Sakr.

Understanding the United States ' wars in Iraq and Afghanistan is essential to understanding the United States in the first decade of the new millennium and beyond. These wars were pivotal to American foreign policy and international relations. They were expensive: in lives, in treasure, and in reputation. They raised critical ethical and legal questions; they provoked debates over policy, strategy, and war-planning; they helped to shape American domestic politics. And they highlighted a profound division among the American people: While more than two million Americans served in Iraq and Afghanistan, many in multiple deployments, the vast majority of Americans and their families remained untouched by and frequently barely aware of the wars conducted in their name, far from American shores, in regions about which they know

little. Understanding the U.S. Wars in Iraq and Afghanistan gives us the first book-length expert historical analysis of these wars. It shows us how they began, what they teach us about the limits of the American military and diplomacy, and who fought them. It examines the lessons and legacies of wars whose outcomes may not be clear for decades. In 1945 few Americans could imagine that the country would be locked in a Cold War with the Soviet Union for decades; fewer could imagine how history would paint the era. Understanding the U.S. Wars in Iraq and Afghanistan begins to come to grips with the period when America became enmeshed in a succession of “ low intensity ” conflicts in the Middle East.
