When people share their stories and ask their questions, something beautiful happens. Relationships deepen, and people begin to see God at work in their lives, and the lives of others. But how do "deep" conversations begin? Through grappling questions and respectful discussion. That's what Fearless Conversation Adult Sunday School Curriculum is designed to do--build relationships through authentic conversation. Looking to the Bible for the truth, Fearless Conversation guides participants through genuine discussion that digs deep into what God has to say. This easy-to-lead, low prep curriculum is saturated with Bible content and will: Help people get to know God and each other better by exploring "wondering" questions. Encourage people to look to the Bible and seek answers to their biggest questions. Foster participation so everyone is a valuable part of the dialogue. People want to talk about their faith. Give them the opportunity to openly share their stories, ask their questions, and connect with others in a safe environment. You'll be amazed at what can happen. This Leader Guide gives leaders all the lessons, notes, and Bible background, plus additional tips and resources for the first 13 weeks of the Fearless Conversation curriculum. Fearless Conversation features a 2-year Scope and Sequence and will work for any size group. The first 13-week title, Why is Jesus so Radical?, releases 6/2/2014. Subsequent titles will be released quarterly. You can start with any volume you choose!

Conceptual Breakthroughs in Evolutionary Genetics is a pithy, lively book occupying a special niche--the conceptual history of evolutionary genetics-- not inhabited by any other available treatment. Written by a world-leading authority in evolutionary genetics, this work encapsulates and ranks 70 of the most significant paradigm shifts in evolutionary biology and genetics during the century-and-a-half since Darwin and Mendel. The science of evolutionary genetics is central to all of biology, but many students and other practitioners have little knowledge of its historical roots and conceptual developments. This book fills that knowledge gap in a thought-provoking and readable format. This fascinating chronological journey along the many

conceptual pathways to our modern understanding of evolutionary and genetic principles is a wonderful springboard for discussions in undergraduate or graduate seminars in evolutionary biology and genetics. But more than that, anyone interested in the history and philosophy of science will find much of value between its covers. Provides a relative ranking of 70 seminal breakthroughs and paradigm shifts in the field of evolutionary biology and genetics Modular format permits ready access to each described subject Historical overview of a field whose concepts are central to all of biology and relevant to a broad audience of biologists, science historians, and philosophers of science Extensively cross-referenced with a guide to landmark papers and books for each topic

When it comes to family and Christmas, #1 New York Times bestselling author Sherryl Woods always looks to the O'Briens for a little holiday magic For the very driven medical student Caitlyn Winters, catching the bridal bouquet at a Christmas wedding has set off a chain reaction that she's sure is more curse than blessing. Not only has she fallen in love with family medicine resident Noah McIlroy, but an unexpected pregnancy threatens her well-laid plans for the future. It doesn't help that Noah—with a whole lot of help from her O'Brien relatives—is completely on board with the prospect of marriage and happily-ever-after. It takes a whole lot of patience, love and family persuasion to help Caitlyn realize that she can still have everything she ever wanted, including a home in her beloved Chesapeake Shores and a man who understands all of her dreams. "Love, marriage, family, and forgiveness all play an important part in Woods's latest richly nourishing, holiday-spiced novel." —Chicago Tribune on A Chesapeake Shores Christmas

Rose Leonard, on the run from her life, has taken refuge in a remote island community, cocooned in her work and solitude in a house by the sea. However, still haunted by her past, Rose must decide whether she has chosen a new life - or just a different kind of death? Life and love are offered by new friends, her daughter, and Calum, a younger man who has his own demons to exorcise. But does Rose, with her tenuous hold on life and sanity, have the courage to say yes to life and put her past behind her?
