Congress is holding the president  
accountable for the conduct of foreign

oversight hearings by the Senate Armed  
Services and Foreign Relations committees,  
Linda Fowler evaluates how the legislature's  
most visible and important watchdogs  
performed from the mid-twentieth century

to the present. She finds a noticeable reduction in public and secret hearings since the mid-1990s and establishes that American foreign policy frequently violated basic conditions for democratic accountability. Committee scrutiny of the wars in Iraq and Afghanistan, she notes, fell below levels of oversight in prior major conflicts. Fowler

All democracies have had to contend with the challenge of tolerating hidden spy services within otherwise relatively transparent governments. Democracies pride themselves on privacy and liberty, but

intelligence organizations have secret  
budgets, gather information surreptitiously  
around the world, and plan covert action  
against foreign regimes. Sometimes, they  
have even targeted the very citizens they  
were established to protect, as with the  
COINTELPRO operations in the 1960s and  
1970s, carried out by the Federal Bureau of

Investigation (FBI) against civil rights and  
antiwar activists. In this sense, democracy  
and intelligence have always been a poor  
match. Yet Americans live in an uncertain  
and threatening world filled with nuclear  
warheads, chemical and biological weapons,  
and terrorists intent on destruction. Without  
an intelligence apparatus scanning the globe

to alert the United States to these threats, the planet would be an even more perilous place. In *Spy Watching*, Loch K. Johnson explores the United States' travails in its efforts to maintain effective accountability over its spy services. Johnson explores the work of the famous Church Committee, a Senate panel that investigated America's

established new protocol for supervising the  
Central Intelligence Agency (CIA) and the  
nation's other sixteen secret services.  
Johnson explores why partisanship has crept  
into once-neutral intelligence operations,  
the effect of the 9/11 attacks on the  
expansion of spying, and the controversies

He finds that because party leaders have more control over the legislative agenda, committees have spent more of their time

alone does not explain this trend; changes in  
institutional rules and practices that  
empowered party leaders have created more

to a shift in their policy activities. The shift
